

E-2000i

Designed to protect enterprises, allowing for the highest performance possible from a single Network Box unit

□ E-2000i

E-2000i Overview

The Network Box E-2000i hardware appliance is designed to offer enterprises fully comprehensive cyber protection.

Firewall	Proxy, Packet Filtering, Stateful Packet Inspection
IDS/IDP	3 Engines 16,000+ Signatures
VPN Types	IPSEC, PPTP, SSL
Anti-Spam	25 Engines 30.8million+ Signatures
Anti-Malware	16 Engines 11.2million+ Signatures
Content Filtering	15 Engines 7.7million+ Signatures
Anti-DDoS	Real-time automated fingerprinting, millisecond response
IPv4 to IPv6 Bridging	Incoming/Outgoing Protocol Translation
PUSH Updates	Updates automatically delivered and installed in an average time of less than 45 Seconds

Technical Specifications

Processor	2 x 64bit, 2.0GHz, 6 physical cores
RAM	16GB, 1333MHz ECC DDR3
Storage	Standard: 4 x 4TB 3.5" HDD Optional: Up to 4 x 4TB 3.5" HDD with hardware RAID addon module
Networking	Standard: 4 x 1Gb RJ45 using Intel i350 chipset Optional: 4 x 1Gb RJ45 additional module 2 x 10 Gb: 10 GBASE - SR 10 GBASE - T
MTBF	8.5 years
Power Supply	2 x 600w hotswap
Chassis	2u rackmount – 4 x removable HDD
I/O Interface	1 x reset button 1 x RJ-45 Management Console 1 x RJ-45 Ethernet Port 2 x USB 2.0
Physical Dimensions	444mm(w) x 88mm(h) x 600mm(d)
Weight	25.0kg
Approvals/Compliance	CE emission, UL, FCC Class A, RoHS
